

College and University Audiences

As former Academic Advisor and Career Coach at various colleges, Tracy Ready is no stranger to the challenges that students face nor is she a stranger to championing their success. She is a first generation college graduate in her own family and understands the impact of inviting education into a family line.

Tracy is an Emotional Wellness and Personal Development Thought Leader with a Master's degree in Marriage and Family Therapy and Bachelors in Business Administration. She is the Owner of The Tracy Ready Company, the Chief Heart Navigator of the H.E.R. Power Movement, the host of the upcoming Youtube show EmpowHER Life and the Dean of the H.E.R. Power Academy which launches in 2016. She has worked with students in a counseling and life coaching capacity for approximately 8 years, stirring them to create the life they dream about!!

Using her own story, Tracy's goal is to inspire students to chase that thing that seems unreachable, unrealistic and inconvenient because it will pursue you until you pursue it.

Her motto is life is inevitable, **living** is a choice!
